

Robert Drewitt

BcSc (Ag)

“My industry background in agribusiness finance coupled with agronomy experience provides me an ability to achieve workable solutions for Agronomy Services Australasia’s clients and their stakeholders.”

Robert joins ASA having worked as a Senior Agribusiness Manager in an Australia Bank for the past ten years and before that, nine years of in field agronomy experience. After leaving the University of Western Sydney with a degree in Applied Agricultural Science, Robert worked a further 5 years in Agribusiness lending for the Primary Industry Bank of Australia.

This experience provides Robert with a valuable insight into Australian farming businesses and the driving forces that impact and underpin their economic survival.

Robert has settled numerous financial transactions, including large complex lending for both Agricultural farms and the Agricultural supply chain. Roberts’s first hand knowledge in working within the confines of the banking industry is an asset on these formal appointments.

The professional experience Robert has is predominantly in rural based industries including with Sugar, ethanol, grains, horticulture as well as feed milling, rural merchandise retailing and meat processing.

Robert is uniquely placed with his finance background to achieve the best outcomes for all of Agronomy Services Australasia’s stakeholders with a diversified skill set to facilitate change management or provide rural finance and hands on agronomy solutions.
