

Guano Gold gives easy crop boosts

Michael Nagorcka, Director of Waltanna Farms in Victoria, has been using Guano Australia products for 15 years and has been constantly impressed by the results.

"All of the products, including the Guano Gold[®], both granular and foliar, have been outstanding; especially the granular KMS[®] and the Guano Sulphur Gold[®] down the tube at sowing has given us a really good strike rate as far as germination and bigger early and the foliar spray plays an integral part when our crop's up in full flag.

We do two applications of the Guano Sulphur Gold[®] and the KMS[®] together at full flag and then at flowering. That goes on oats, wheat, barley, flaxseed and chickpeas."

Mr Nagorcka said he was swayed to try the products because of their organic status and competitive pricing, as well as how easy it was to mix into a specialised brew with worm castings and other inputs. It was also important to him to maintain soil health and rigour and protect the soil for the next generation.

"I'd have to say that John has been very proactive and ahead of the game. He's always been a forward thinker as far as supply commodity and customers being looked after."

Mr Nagorcka said it was reassuring to know that there were no supply issues to impact his cropping plans coming into next season.

"Unless you've got the product, you can't go forward. You want to be assured you've got it on the shelf and ready to go," he said.

Farmer Dale Frankel said he loves using Guano Liquid Gold[®] in its liquid form and doesn't add anything else.

"The response I had this year using the Guano Liquid Gold[®] was great. I had been using microbial inputs with home brew types of gear to balance the soil out.

The growth was very ordinary at the start and just two weeks after using Guano Liquid Gold[®], I did see a huge response. The difference was just really quite dramatic because it didn't even seem to have the plant population there in the first place and they just bulked up.

"It looked pretty bleak early on because I was even deciding at one point whether to cut it and I thought it might be better to just leave it and let it seed down for next year because I didn't think it was going to be thick enough to cut.

I fertilised one strip twice and it was noticeably better again. It's great stuff."

**GUANO
GOLD[®]**

REVAMP TIRED SOIL AND
NOURISH PLANTS SIMPLY,
WITH THE **GOLD** STANDARD
IN NUTRIENT BASED,
SUSTAINABLE FERTILISER;

**SIMPLE TO APPLY, COMPATIBLE WITH LEADING BOOM SPRAY, TILLAGE INJECTION AND
FERTIGATION EQUIPMENT, ENJOY MINIMUM OUTLAY AND DISTRIBUTION TIME.
IT'S TIME TO BREAK UP WITH SYNTHETIC FERTILISERS AND EMBRACE
GUANO LIQUID GOLD with KMS[®], FOR GOOD.**

**GUANO LIQUID GOLD with KMS[®] IS THE SCIENCE OF BETTER YIELDS,
THIS SEASON, AND NEXT.**

SOW AND GROW BETTER NEXT SEASON, BY STARTING TODAY.

GUANO LIQUID GOLD with KMS[®] IS READY TO BE SHIPPED ACROSS AUSTRALIA.

Available Now in 15 litre pails and 1000 litre shuttles.

WHAT OUR CLIENTS LOVE ABOUT GUANO LIQUID GOLD with KMS[®]

"It's a unique product that delivers rapidly available phosphorus, calcium and potassium in one. As well as, silica and carbon to help soil biology and cation exchange, trace elements with magnesium and sulphur. It's a soil conditioner and Fertiliser in one!"

Graeme Talarico - Shepparton, VIC

"For us the real benefits are:

- Flexible timing of application
- Excellent plant nutrient availability
- Easy to mix
- Convenient pack size
- Quick plant response equals increased productivity!"

Guano Liquid Gold with KMS[®] contains fast and slow-release macro and micronutrients to get to the roots of your crops and plants throughout the entire growing cycle. It's the 100% natural way to supercharge your soil and leaves with plant available phosphorus, calcium, potassium, magnesium and silica for healthier, tastier and more robust crops.

IS GUANO LIQUID GOLD with KMS® RIGHT FOR YOU?

- YOU WANT PRODUCE THAT LOOKS, TASTES AND STORES BETTER
- YOU NEED GREATER YIELDS
- YOU WANT RICHER, MORE FRAGRANT SOIL
- YOU WANT STRONGER, HEALTHY CROPS
- YOU NEED A SOIL FERTILISER CONDITIONER THAT IS COMPATIBLE WITH YOUR CURRENT EQUIPMENT
- YOU'VE FERTILISED IN THE PAST WITHOUT THE ADVICE FROM A PROFESSIONAL AGRONOMIST
- YOU WANT ALL ROUND PRODUCTION PROTECTION FOR YOUR PRECIOUS SOIL

WHY SO MANY AUSTRALIAN FARMERS ARE MOVING TO SUSTAINABLE, NATURAL GUANO LIQUID GOLD with KMS®

- Easy to spread liquid, no costly new machinery needed
- Non-acidic 7.5 pH
- 80% citric soluble P for sustained phosphorus supply
- Our highest potassium product for maximum leaf stimulation and plant fertilisation.
- Soluble silica to restore balance to damaged soils and boost plant health, produce shelf life and BRIX levels
- 26% calcium for increased boron movement
- Fast and slow-release formula to provide ongoing nourishment
- Contains natural plant "immune boosters" for more robust crops
- Provides a steady, sustained source of phosphorus with less fertiliser
- Improves plant resistance to abiotic stresses like heat, cold and moisture
- Improves plant resistance to biotic stresses like pathogens and pests

WHY AUSTRALIAN HORTICULTURALISTS RAVE ABOUT THE KMS® ENHANCED FORMULA

- **Excellent plant nutrient availability**
Sustained, optimum plant health from season start to maturity
- **Rapid availability of potassium and calcium**
Potassium and calcium optimise phosphorus absorption, protecting the leaf, slashing costs and boosting growth
- **100% safe, conveniently packaged, simple to mix, and easy to apply**
Made specifically for busy Australian farmers
- **Rich source of plant available silica combined with sulphur and magnesium**
Silica for optimum taste and maximum shelf life, go to market with confidence
- **Micro particles with our exclusive, safe patented surfactant to bond to leaves for maximum results**
For bumper crops, and better soil, season after season

GUANO LIQUID GOLD with KMS® SOLVES COMPLEX AGRONOMY PROBLEMS

Diminished soil quality is a major threat to Australian farmers. Guano Liquid Gold with KMS® is scientifically proven to deliver a sustainable solution and balanced soil. End your dependence on high volume synthetic fertilisers. Get sustained release nutrients, minimise run off, and begin restoring soil the proven way.

ORDER YOUR GUANO LIQUID GOLD with KMS® NOW!

YOUR FARM'S PERFORMANCE COULD CHANGE WITH ONE SIMPLE PHONE CALL. ISN'T IT WORTH DISCUSSING?
